Treatments

for facial rejuvenation and body shaping

For a slimmer figure, try **Med Contour**, a unique body shaping treatment that can reduce the size of the targeted area by as much as 2.5 cm in a single session. One of the most effective methods for eliminating excess fat and cellulite, it is a natural alternative to liposuction.

For visibly more toned skin and more pronounced facial features, our physicians recommend **Med Visage**, a unique natural rejuvenation treatment. Thanks to its effectiveness, it offers the best natural alternative to surgical face lifting.
